Be prepared for any situation.

Jam-Packed Thru Car Killer Kit

Everything you need to get into virtually every vehicle on the road.

With the prevalence of side impact air bags and the increased use of protective shields in the door cavity, more often, opening locked vehicles needs to be done from the inside of the car. Protect your customer's car by using the right tools for the job. HPC's Jam-Packed Thru Car Killer Kit contains everything you need to open the vehicle quickly and safely, without entering the door cavity.
