## CARBIDE TIP DRILL BITS

These Carbide Tip Drill bits are specially designed for drilling through safes, hard plate, and other demanding metal work.

Sizes range from 1/8" to 5/16" in diameter, and from 3" to 30" in length. See complete product line-up to the right.

### Stock numbers and Sizes

Stock Number	Diameter and Length
K-B18X3	1/8" x 3" Carbide Tip Safe Drill Bit
K-14X4	1/4" x 4" Carbide Tip Safe Drill Bit
K-14X6	1/4" x 6" Carbide Tip Safe Drill Bit
K-14X13	1/4" x 13" Carbide Tip Safe Drill Bit
K-316X4	3/16" x 4" Carbide Tip Safe Drill Bit
K-316X6	3/16" x 6" Carbide Tip Safe Drill Bit
K-38X4	3/8" x 4" Carbide Tip Safe Drill Bit
K-38X6	3/8" x 6" Carbide Tip Safe Drill Bit
K-B38X13	3/8" x 13" Carbide Tip Safe Drill Bit
K-38X30	3/8" x 30" Carbide Tip Safe Drill Bit
K-12X4	1/2" x 4" Carbide Tip Safe Drill Bit
K-12X6	1/2" x 6" Carbide Tip Safe Drill Bit
K-B12X13	1/2" x 13" Carbide Tip Safe Drill Bit
K-12X24	1/2" x 24" Carbide Tip Safe Drill Bit
K-516X4	5/16" x 4" Carbide Tip Safe Drill Bit
K-516X6	5/16" x 6" Carbide Tip Safe Drill Bit
K-516X13	5/16" x 13" Carbide Tip Safe Drill Bit
K-516X30	5/16" x 30" Carbide Tip Safe Drill Bit

The longer bits, such as the 24" & 30" bits, are ideal for access control & alarm work. With their sharpened tips, designed for opening safes, they are ideal for drilling through walls and especially helpful if you should encounter any rebar!

## FLEX BIT

Keedex Flex Bits are a great new product available from Keedex. These bits are long enough for core drilling doors, drilling at (install) sites for running wiring in walls and crawl spaces.

### Available in these sizes:

- FB-14X24 - 1/4" x 24" Flex Bit
- FB-38X24 - 3/8" x 24" Flex Bit
- FB-14X36 - 1/4" x 36" Flex Bit
- FB-38X36 - 3/8" x 36" Flex Bit
- FB-14X48 - 1/4" x 48" Flex Bit
- FB-38X48 - 3/8" x 48" Flex Bit

- Designed to drill through steel plates as well as wood.
- 118 degree point provides more gradual breakthrough and limits the grabbing that occurs when using a traditional 135 degree point.
- Split point tip and slow spiral design improves bit self-cleaning and eases pull back.
- 3/16" flexible shaft allows you to easily align the bit along a stud for reference drilling.
- Holes in drill bit head and chuck end for attaching wire.

ALWAYS WEAR SAFETY GOGGLES WHEN USING THIS PRODUCT!
